

Binder+Co AG to be listed in the regulated free trading segment (semi-official market)/mid-market of the Vienna Stock Exchange from July 16

Gleisdorf, July 13, 2007. With effect as of July 16th, Binder+Co AG is to move within the mid-market of the Vienna Stock Exchange from the unregulated third market to the regulated free trading segment. This means that the company share is now listed in the regulated market.

The specialist for processing, environmental and packaging technology had been listed since June 18 in the new mid-market segment, however, until now in the third market segment. Prior to this, from the end of 2006, the company had been part of the other listings at segment. Member of the Board, Karl Grabner, "As a result of this relisting, we will be more attractive to institutional investors, as the investment regulations require frequent listing in a regulated market."

Binder+Co is the market leader in the area of screening technology for difficult-to-screen materials and glass recycling. In 2006, Binder+Co had an average of 208 employees, and generated sales of EUR 42.7 million and an EBIT of EUR 4.0 million. The ROSEBIT thus amounted to 9.1%. Since listing in December 2006, the price of the company share has risen from EUR 10.00 (issue price) to EUR 11.85 (as of July 13, 2007).
